Nagarkot, located 32 km east of Kathmandu. A panoramic view of the Kathmandu Valley. The scenic beauty of the place makes it a very popular hiking route for tourists and a sunrise view of the Himalayas including **Mount Everest** as well as other peaks of the Himalayan range of eastern Nepal.

It is located approximately 7000 ft (2000 m) above sea level and 28 km from Kathmandu International Airport.

Nagarkot commands one of the **broadest views of the Himalayas** in the Kathmandu valley (8 Himalayan ranges of Nepal out of 13 from here). The ranges include **Annapurna range, Manaslu range, Ganesh himal range, Langtang range, Jugal range, Rolwaling range, Mahalangur range (Everest range) and Numbur range with views of the Kathmandu valley and Shivapuri National Park.**

Nature has been kind to Nagarkot. The place provides seclusion to the city slickers and throws them right back in nature's comforting lap. The place has gained credits for establishing itself as the ultimate get-away from the noise pollution city folks are infested with. That is not all, the lush greenery, exquisite birds and flowers, the snow-capped mountains, and the naked hills enthrall people of every age, race, gender and geography. It is a testament to nature's bounty. The wilderness is captivating; the "back to nature" call of the Romantic Era apparently fits right to "heading towards Nagarkot".
